

# The Block Plaza (CD – 64)

The Block Plaza is the focal point of a commercial mixed use redevelopment project established by the City Council. The Plaza will create a gathering space that will link old and new buildings with an evolving community. Moreover, it will generate new life in Duluth and create one of the region's great downtown areas. Included in the design will be an alley that will lead to the Plaza from Main Street and connect to West Lawrenceville Street. Engineering and design plans are complete. Construction is underway with an anticipated completion in 2016.

**Design – January 2015**

**Demolition – July 2015**

**Construction – April 2016**
