

# Willbrooke Trail

Addition of a pocket park and an 8' walking trail connecting the Willbrooke neighborhood to the future South on Main neighborhood. Ultimately, this will allow direct pedestrian connection into downtown and offer convenient access to shops, restaurants, theater, parks, and future library. In addition, traffic calming measures will be implemented along McClure Woods Drive to create a safer pedestrian crossing at the trail head and between the trailhead and the main entrance to the subdivision.

**Design – Fourth Quarter 2018**

**Construction – Anticipated June 2019**
